Investment Strategy

This fund is composed of a portfolio of actively managed underlying funds that aims to reconcile the implementation of responsible investing principles with the achievement of competitive financial performance, in the form of long-term capital appreciation. Its allocation is very heavily tilted towards growth-oriented securities compared to fixed-income securities. The fund is intended for investors who have an aggressive profile and very high risk tolerance. The underlying funds bring to the forefront the integration of environmental, social and governance (ESG) factors into investment selection and management, in some cases through a focus on specific sustainable development approaches or objectives. Furthermore, the fund is subject to exclusion criteria related to tobacco, nuclear energy, weapons and fossil fuels.

Notes

The benchmark was last changed on June 1st, 2022.

Returns calculated before April 2022 are simulated according to the allocation of SocieTerra Portfolios in force before this date.
