### Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

- Low Load, 3 years (Fee Option B) – 0.50% of the market value of the Units attributed to this fee option each year for the first 3 calendar years and 1.00% of the market value of the Units attributed to this fee option thereafter.

### Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

### Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

## Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

## Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

## Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

### Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

## Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

### Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

### Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

## Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

## Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

### Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

## Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. The additional guarantee fees apply if you have chosen the guarantee 75/100 i, the guarantee 100/100 r, the GMWB optional guarantee, the GLWB optional guarantee or the GLWB – Version 2 optional guarantee. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

- Negotiable Fee Option (Fee Option A) – 1.00% of the market value of the Units attributed to this fee option each year.
- Low Load, 3 years (Fee Option B) – 0.50% of the market value of the Units attributed to this fee option each year for the first 3 calendar years and 1.00% of the market value of the Units attributed to this fee option thereafter.

### Ongoing Fund Fees

The MER includes the management fees, operating expenses and taxes of the fund as well as the insurance cost for the guarantee 75/75. You don't pay these expenses directly. These additional guarantee fees are paid out of the contract each month. They affect you because they reduce the return you get on your deposit. For more details about how the guarantees work, see the guarantees sections in the Contract and Information Folder.

- Negotiable Fee Option (Fee Option A) – 1.00% of the market value of the Units attributed to this fee option each year.
- Low Load, 3 years (Fee Option B) – 0.50% of the market value of the Units attributed to this fee option each year for the first 3 calendar years and 1.00% of the market value of the Units attributed to this fee option thereafter.
- Back End Load, 6 years (Fee Option C) – 0.50% of the market value of the Units attributed to this fee option each year.
